OFFICE OF PETITIONS

Dear Sir:

In accordance with 37 C.F.R. § 1.181(a), Applicant respectfully petitions to withdraw the holding of abandonment of the above-identified application. The Notice of Abandonment was mailed by the Office on September 5, 2002. The reason stated in the Notice was that Applicant failed to timely file a proper reply to the Office Letter mailed on August 27, 2001, which was due on September 27, 2001. However, Applicant did file a Response to Restriction Requirement and Preliminary Amendment on September 27, 2001. Applicant then filed a Status Request on March 28, 2002, including a copy of the postcard that was returned on April 19, 2000 with the Application Serial No. 09/544,392. Applicant received no correspondence concerning the restriction requirement response and preliminary

amendment that was filed at the Patent Office on September 27, 2001. As such, Applicant respectfully submits that the application never became abandoned, and that the holding of abandonment should be withdrawn.

The facts establishing the sufficiency of Applicant's Response to the Restriction Requirement dated August 27, 2001 are as follows:

- The Office mailed a Restriction Requirement on August 27, 2001. A copy of the Restriction Requirement showing the mailing date is attached hereto. The Office set a one month period for reply. Thus, the due date for reply was September 27, 2001.

- Applicant timely and fully responded to the Restriction Requirement on September 27, 2001. In response to the Restriction Requirement dated August 27, 2001, the Applicant elected for prosecution the species of Figs. 1-10 (first embodiment), on which claims 1-50 were readable. This election was made with traverse. In the Response to the Restriction Requirement, Applicant submitted that the species of Figs. 11-12 (second embodiment) in Fig. 13 (third embodiment) were not distinct from the species of the first embodiment, because generic claims 1 and 2 were not all embodiments. This submission was bona fide, and to the extent Examiner Flynn deems it not responsive, the non-responsiveness was inadvertent and unintentional. A copy of Applicant's Response to Restriction Requirement and Preliminary Amendment, and the Transmittal are attached hereto.

- On March 28, 2002, Applicant filed a Status Request. A copy of Applicant's Status Request is attached hereto.

- On September 5, 2002, the Office mailed a Notice of Abandonment claiming "This Application is abandoned in view of: Applicant's failure to timely file a proper reply to the Office letter mailed on August 27, 2001." A copy of the Notice of Abandonment is attached hereto.

Based on the foregoing, Applicant submits that Applicant fully and timely responded to the Restriction Requirement mailed on August 27, 2001. To the extent that Examiner Flynn believes that the Applicant's Response to the Restriction Requirement was not fully responsive, the undersigned respectfully requests that Examiner Flynn contact Applicant's counsel at (213) 337-6793 explaining why the Response to the Restriction Requirement was not deemed fully responsive. On the other hand, if the Office's assertion that Applicant failed to timely file a proper reply to the Office letter mailed on August 27, 2001 was erroneously transmitted in error, and the Application should never have been held abandoned, then Applicant respectfully requests that the holding of Abandonment is withdrawn.

The Office is authorized to charge any fees in connection therewith to Deposit Account No. 50-1314.

Applicant believes that the holding of abandonment should be withdrawn. However, if the Office denies the petition to withdraw the holding of abandonment, Applicant, in accordance with 37 C.F.R. § 1.137(b), respectfully and conditionally petitions for revival of the above-identified patent application which became unintentionally abandoned on September 27, 2001.

In accordance with 37 C.F.R. § 1.17(m), please charge any necessary fee for the conditional petition to revive to Deposit Account No. 50-1314.

Applicant became aware that the application had been declared abandoned upon seeing the Notice of Abandonment on or about September 9, 2002. The entire delay from the due date for the reply until the filing of a grantable petition pursuant to 37 C.F.R. § 1.137(b) was unintentional.

It is believed that no extension of time is required. However, should an extension of time be necessary for further response in the above-identified application or to prevent the above-identified application from becoming abandoned, please consider this a conditional petition for such an extension of time. Please

charge any fee for such an extension of time to Deposit Account No. 50-1314. A copy of this paper is enclosed.

Applicant believes that no fee is due in connection with the instant petition. However, if it should be determined that for any reason either an insufficient fee or an excessive fee has been paid, please charge any insufficiency or credit any overpayment necessary to ensure revival of the above-identified Application to Deposit Account No. 50-1314. A copy of this Petition is enclosed.

Respectfully submitted,

This application contains claims directed to the following patentably distinct species of the claimed invention: embodiment 1 shown in figures 1-10, embodiment 2 shown in figures 11-12, embodiment 3 shown in figure 13, embodiment 4 shown in figures 14-22.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim appears to be generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over

the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
